

Thank you for being a valued partner of Mahr. Your business partnership is very important because it helps ensure we maintain our high standards in both our product quality and customer care. As we head into the second half of the year, I wanted you to be aware of what we currently have going on here at Mahr. We are currently accepting orders on the all-new **Wireless Demo Kit for Distributors**. This kit allows you to demonstrate the full line of Mahr integrated wireless products. Take advantage of this special offer and **save 50% off list price!** All orders **must be in by August 1, 2017** for delivery in October 2017.

Also, on July 24th we hosted a Distributor Webinar where George Schuetz introduced the audience to Mahr's new product offering. If you were not able to attend the session, a recording is available here. <https://attendee.gotowebinar.com/register/6025145983409476354>

Additionally, feel free to contact me if you would like to schedule a demo or training at your site with your District Manager. These tools are here for you to help you become more successful in selling Mahr products.

Looking forward to working together to achieve an excellent rest of 2017!
